

# GREAT HOMES MADE GREATER

**M**arkstone Construction UK Ltd are high end quality builders in London and the Home Counties, specialising in residential property refurbishment, property renovation including listed buildings, apartment fit outs, basement construction and basement conversions.

Having cut their teeth in the refurbishment of listed buildings, gaining many awards along the way, Markstone has progressed to becoming the “go to” builder for both the investor and the discerning homeowner.

Markstone now has many years of experience undertaking projects ranging from £200,000 to £3,000,000 in the London area. They have gained a very diverse expertise, knowledge and the required skills for the building and refurbishment market including general building, refurbishment, extensions and restoration work on many types of residential and commercial buildings.

Their business has grown by giving their clients a consistently high quality and reliable service. They maintain that attention to detail is paramount in order to deliver a top class finished product, which is why they use directly employed skilled tradesmen which allows them to have strict control over quality. Over the years Markstone has also built long standing relationships with reliable sub-contractors and suppliers who share their values.

Markstone understands that every project is unique and that every customer has different agendas and requirements, and this is reflected in the way they manage each project.

This has resulted in a strong customer base, repeat business and strong referrals and recommendation.

In fact, Markstone state that over 50% of new

enquiries come as referrals from satisfied clients, and Markstone take pride in showing new potential clients around completed projects and can provide testimonials and references.

Markstone are active members of the Considerate Constructors Scheme and have won many awards. Twice Winners of Best Refurbishment/Restoration Works in London area, Distinction & Merit awards in London area from the Federation of Master Builders; Built in Quality Award from Tonbridge & Malling Borough Council.

Markstone understand that building projects can be a stressful and complex, but by working closely with their clients and their consultants throughout the project, they are able identify their client’s needs and minimise the stress wherever possible. They are able to draw on their experience and by working closely with their client, consultants and supply chain they can produce a product that everyone is proud of.

Markstone display a “can do and will do” attitude and will go that extra mile to ensure a happy client.

Markstone can also help you with your product if needed, as they are backed up with a team of qualified experienced architects and building professionals.

Therefore, if you are looking to refurbish, extend or rebuild your home in the London area, why not get in touch with Markstone to discuss your needs.

Similarly, if you are an architect or other building professional looking expand your contractor base, why not get in contact.

As they say on their livery: “GREAT HOMES MADE GREATER” ■
